## Professional Summary

Resourceful Full Stack Developer with over 3 years of professional experience in designing, developing, and maintaining scalable web applications using React and .NET. Skilled in both frontend and backend technologies with a strong focus on clean code and best practices.

## Work Experience

### Full Stack Developer

**Innovative Tech Solutions** | March 2021 – Present

Designed and developed web applications using React, TypeScript, Redux, and .NET Core. Integrated APIs, third-party services, and various databases including SQL Server and MongoDB. Collaborated with UI/UX designers, product managers, and developers in an agile environment. Participated in code reviews, testing, and deployment using Git, Docker, and CI/CD pipelines.

### Junior Full Stack Developer

**Digital Innovations Inc.** | January 2019 – February 2021

Developed responsive web interfaces with React and implemented backend services with C# and .NET Core. Assisted in API development and database management using PostgreSQL. Enhanced application performance and maintained high code quality standards.

## Education

### State University

Bachelor of Science in Computer Science, Graduated May 2018

## Skills

**Frontend:** React, TypeScript, Redux, HTML5, CSS3, Tailwind/Bootstrap

**Backend:** .NET Core, C#, Entity Framework

**Database:** SQL Server, PostgreSQL, MongoDB

**Tools:** Git, Docker, CI/CD pipelines, REST APIs, Swagger

**Soft Skills:** Problem-solving, Communication, Collaboration, Adaptability

## Certifications

Certified Full Stack Developer – Issued by TechCert, June 2020

Advanced React Certification – Issued by WebAcademy, December 2021

## Additional Information

Remote work experience with a proven track record of managing distributed teams. Actively involved in tech communities and continuous learning through online courses and workshops.
